

PENNELL

Regarded by Court as Man Who Killed Burdick.

Justice Makes Public Findings in The Inquest.

Theory That a Woman Was in Burdick's Den the Night of the Murder Not Sustained by Evidence—What Court Said.

Buffalo, N. Y., March 31—Police act on his part. It portrays him as a Justice Murphy this morning made public his findings in the inquest into the murder of Edwin L. Burdick at his home in this city February 27, 1903. He reviewed the evidence at length and concluded that the facts pointed to Arthur R. Pennell as the murderer and added:

"Altogether these facts would in my opinion, constitute just ground of suspicion of which a warrant could be issued were he alive. That would not mean, however, that he was guilty. He must be presumed innocent until proven guilty.

"The theory that Burdick had a woman guest in his den, that night has not been sustained by the evidence. It has not disclosed a single immoral

PENNELL MYSTERY

May Never be Cleared by Buffalo Police—Official In- quest is Postponed Indefinitely by The Court.

Buffalo, N. Y., March 31—Justice Murphy is to announce his findings in the Burdick inquest today. No arrests will be made; no warrants will be issued. The Pennell inquest which Judge Murphy had announced would begin yesterday was postponed indefinitely. The reason announced was the absence of witnesses from the city. District Attorney Coatsworth was in the court and said that the postponement was not at his request. One witness was absent from the city. He was Wallace Thayer, Pennell's attorney and confidential friend. A dozen or more witnesses in the Pennell inquest were present ready to give

New Alaska Gold Fields, Richer Than the Klondike.

Chicago, March 31—A dispatch from Tacoma, Washington, says that careful investigation shows that the gold discoveries on Tanana river, Alaska, are richer than the Klondike. Every-thing indicates that the district will exceed the Klondike camp in area, proving the greater placer discovery on American soil since gold was discovered in California.

A conservative estimate of the probable output during the next year puts it at \$20,000,000. A thorough inspection of the entire camp has just been made by S. S. Marshall on behalf of Klondike miners. He spent two weeks panning on all creeks where pay has been struck.

He found many claims averaging 20 to 30 cents per pan while the average Eldorado creek, the richest stream in the Klondike is 17 cents. Even surface dirt runs up to 5 cents per pan on most creeks.

JUDGE

Sends Hungate to Ohio Pen for Five Years.

Painesville, O., March 31—Rev. Frank Hungate, former pastor of the Baptist church here, was sentenced today for performing a criminal operation on his 18 year old housekeeper, Phoebe McKeever. He said he owed it to God and to the people of Painesville to declare that he was innocent. Judge Metcalf sentenced him to five years in the penitentiary.

BOYS' BRIGADE—The officers and men of G company will report promptly at 1:30 p.m. Wednesday at the Y. M. C. A. Duane Fulton, Adjt.

COSHOCTON

Coshocton, O., March 31—Mrs. May Fowler is mysteriously missing. She is a widow and had contracted for a number of boarders and lodgers. When they appeared she and her furniture had disappeared.

Mrs. Elias King was instantly killed at Dundee by a Wheeling and Lake Erie freight train. She and Mrs. Daniel Weaver were driving together. The vehicle was demolished but Mrs. Weaver and the horse were but slightly injured.

The Premium Manufacturing company and the Western Novelty company were consolidated yesterday and will be known by the name of the former, with the capital stock increased to \$75,000. The new company will employ 500 hands.

TREATY

Ratifications Exchanged By Hay and Quesada On Tuesday.

Washington, March 31—Minister Quesada for Cuba, and Secretary Hay, for the U. S., this morning constructively exchanged ratifications of the

GONZALES DE QUESADA. Cuban reciprocity treaty. The copy ratified by the Cuban Senate had not yet arrived but both signed the copy ratified by the United States Senate and agreed in writing to recognize that act as an exchange of ratification. They will sign the Cuban copy when it arrives.

SWEETHEART

Was First Killed Then Young Man Took His Own Life—Barber Used a Razor.

Chillicothe, Ohio, March 31—Forest McCord, a barber, aged 24 years, living at Bourneville, this county, killed Charity Storts, aged 20 years, by cutting her throat from ear to ear after which he cut his own throat in a like manner.

The deed was done at the girl's home near South Salem.

McCord and a number of companions were drinking heavily Sunday and he struck one of them with a beer bottle. A warrant was issued for his arrest.

He left his home immediately for the Storts home, eight miles distant, and found the young girl alone with her mother, who occupied an upstairs room.

He remained with Miss Storts about one hour, when the screams of her daughter brought the mother to the stairway, and she saw her daughter in McCord's arms covered with blood and her head almost severed from her body.

She rushed down stairs but before she reached the first floor McCord dropped the girl and drew the razor across his own throat and fell to the floor.

McCord and Miss Storts had been sweethearts for several years. It is supposed that McCord, fearing arrest, was filled with remorse and went to the Storts home and committed the deed.

OLD MUSKET

Fished Out of River Where it Was Thrown by Soldier Nearly 40 Years Ago.

Mr. J. C. Kreig, superintendent of the Children's Home, received this morning from his old home in Frederick, Maryland, a relic of the war of the Rebellion that is highly prized by him. It is an old musket, of the regulation pattern, used by the Union troops, and was fished out of the Monocacy river by Mrs. Lena Reid, a sister of Mr. Kreig, in 1901. Mrs. Reid and a number of ladies were fishing in the river two miles below the battlefield where the Confederates under General Early defeated the Union troops under General Wallace, on July 9, 1864. While fishing Mrs. Reid's hook caught on something, and in endeavoring to dislodge it drew the old musket from the water, where it had lain for over 37 years. It had evidently been thrown into the river by a soldier during the retreat of the Union army. The stock has been badly eaten away by the ravages of time, while the barrel is deeply corroded and rusted.

FULL

Speed When The Crash Came.

Engines Smashed and One Blew Up.

THE PASSENGERS THROWN FROM THEIR SEATS

BUT TWO PEOPLE WERE KILLED.

While Express Messenger Was Fatally Hurt—Collision on Eastern Road This Morning

Waterbury, Conn., March 31—In a collision between a light engine south bound from this city, and passenger train No 1206, on the Berkshire and Hartford railroad, about a mile south of here this morning two trainmen were killed and one person fatally injured. The collision was head on, while both the train and engine were running full speed.

The dead:

—Chapman, engineer of the light engine.

Bert Newman, fireman of the passenger train.

Express messenger Scully of the passenger train was fatally injured.

The engines were smashed and the light engine blew up. The shock of the collision was terrific. Passengers were thrown from their seats and a number were slightly injured by the force of the crash.

ENRAGED MEN

GRABBED A FELLOW WHO HAD MARRIED A CHILD

Two Weeks After His Wife's Death and Threatened Him With Vi- olence—Arrest Made

Anderson, Ind., March 31—Because he had, it is charged, by false pretenses, married an eleven year old girl, within two weeks after his wife's death, John McKinney, a machinist, 36 years old, was attacked by over 50 of his fellow workmen last evening, and barely escaped severe punishment at their hands. He promised to leave town at once and to give up his child wife.

While preparing to leave he was arrested on a charge of criminal assault and was locked up. His wife was taken in charge by some woman and an officer, and she will be returned to the Orphans' Home, where she was secured by Mr. and Mrs. McKinney last September. She was Bessie Yingling.

Mrs. McKinney No. 1 died of typhoid fever two weeks ago and was buried at Sheridan. A week later her husband tried to get a license here to marry Bessie Yingling, the orphan. He said she was 16. He was refused a license, but took the child and went to Tipton, where he got the license and they were married by a preacher.

Their marriage did not become known here until last night. At the Buckeye Works workmen surrounded McKinney and were going to throw him into the river near by, when cool heads stopped the enraged men who had grabbed McKinney. He begged pitiously and promised to leave town, but officers soon had him. His girl wife cried to go with him. She asserts that she is 14 years old. Records at the Orphans' Home show she is barely 11, and she looks no older. Her education is meager, and she knows little of a world.

SENATOR CORBETT DEAD

Portland, Ore., March 31—Former United States Senator Henry W. Corbett died this morning of heart failure. He was born in Westborough, Mass., in 1827. Senator Corbett was regarded as the most prominent and best educated man in Oregon.

MONEY

Will be Easier in April Say the Bank- ers.

New York, March 31—More than \$85,000,000 will be paid during April in dividends and interest. Most of this money will be disbursed in New York City. This compares with \$79,000,000 paid last year in April which broke all records up to that time. In preparation for these heavy disbursements the banks have been bustling their resources. Bankers now believe that the monetary stringency is about over and that April will witness a period of easy money rates.

WIDOW

Found Strangled in Her Home at Findlay, Ohio, Today.

Findlay, O., March 31—Mrs. Sarah Dietz, an aged widow was found strangled in her home this morning. She always kept a large sum of money in the house which up to this writing has not been found. There is no clue to the murderer.

FUNDS

Being Raised for Flood Sufferers in South—The Situation Today in Mississippi

Vicksburg, Miss., March 31—Thousands of head of stock have been lost in Greenville and vicinity by the flood. The new break at La Grange, which occurred yesterday is now 800 feet wide and is being tied by convicts to prevent its spreading. The Knights of Pythias are raising funds for the relief of the suffering poor.

Greenville, Miss., March 31—But little change is apparent in the flood situation here. The reports from the weak points in the levee north of Greenville today are to the effect that they are holding. A fall of 2.3 has been recorded on the Greenville gauge since the La Grange crevasse occurred. Greenville is still in darkness at night, the electric light plant being five feet under water. No railroads are running and the only transportation available is by steamboat.

Leland, Ark., is critically threatened. Unless there is a rapid fall today hundreds of miles or Arkansas and north Louisiana will be inundated.

CORBETT-MCGOVERN

San Francisco, March 31—Betting on the Corbett-McGovern fight tonight remains unchanged at 10 to 8 today in favor of McGovern. Both men are in the pink of condition. Corbett is slightly overweight but he says he will be within the limit when the weighing in time comes.

ONE SOLDIER KILLED

Washington, March 31—One soldier was killed and four others were seriously wounded by an explosion of ammunition in one of the caissons of the light artillery stations at Fort Meyer during practice drill this morning. The dead: Corporal S. J. Slaven.

GOT DRINK HABIT IN QUARANTINE

New York, March 31—Mrs. Virginia R. Bidgood is in Harlem hospital suffering from a bullet wound inflicted by her husband and may die. Bidgood is locked up awaiting the result of her injuries. Mrs. Bidgood had her three days' old baby in her arms when the shot was fired.

Five weeks ago one of the Bidgood children was seized with scarlet fever. The house was quarantined and Bidgood was not allowed to go to work. He sat around the house and finally got into a drinking spree. From a respectable workman he became a drunkard.

Yesterday he demanded money from his wife and when it was refused used force.

He also tried to kill his mother-in-law Mrs. Sarah McDermott, but was captured and disarmed.

UTICA GAS.

Twelve Inch Main Will be Laid to Columbus.

The Sale of the Federal Assures Cheaper Gas.

Transfer to be Made Within a Month--New Pump- ing Machinery in the Ohio Field--A Big Gas Deal.

Pittsburg, Pa., March 31—The Ohio Fuel Supply company, with headquarters in this city, and supplying many Ohio towns with natural gas, will purchase the lines of the Federal Gas and Fuel company of Columbus, Ohio.

The stockholders are to meet here April 29, to vote on increasing the capital of the Ohio Fuel Supply company from \$2,500,000 to \$4,000,000.

It has been decided to build a 12-inch gas main 40 miles long, from the Utica field in Knox and Licking counties to Columbus at a cost of \$100,000.

The Federal company purchase involves \$900,000, one-third stock and two-thirds cash and \$200,000 will be expended in piping Columbus to supply natural gas for domestic and manufacturing purposes.

The Utica field has a capacity of 100,000,000 cubic feet of gas per day. The new stock of the Ohio Fuel company will be offered to stockholders at par, \$25, one-half share of new stock to holders of one share of old stock. George W. Crawford of Pittsburg is president of the company.

It is understood that a main will be laid as soon as the work can be completed from the West Virginia gas field to Columbus and the intervening Ohio cities and towns. This will give Columbus a supply estimated at three times that at present available for consumers to draw upon.

New pumps are now on the ground at Sugar Grove to bring the proposed increased supply from the Ohio field to Columbus and will be put in operation as soon as the new Ohio main is completed.

It is understood that as soon as the transfer is made a large force of men several hundred, in fact, will be put to work extending lines in the streets of Columbus.

The Ohio Fuel Supply company has such a large excess of gas that is anxious to increase distribution to consumers without delay.

Local officials state that this deal is quite important: from the point of view of Ohio gas users and especially to the people of Columbus, as it insures the early completion of the Columbus system and in consequence a plentiful supply of gas at 15 cents per 1000 feet.

WITHOUT WARNING

Big Furnace Let go Throwing Molten Metal Over The Men, Seriously Injuring Fourteen-- Three Will Die.

Pittsburg, Pa., March 31—As a result of an explosion in blast furnace "1" of the Edgar Thompson steel works at Braddock, this morning, fourteen men were seriously burned, three of them fatally. The men were casting and without warning the big furnace let go, throwing molten metal

MARK TWAIN

Wants Old Time Steamboat Races as a World's Fair Attraction at St. Louis.

New York, March 31—Mark Twain has recalled the days when he was pilot on the Mississippi river in a letter to David R. Francis, president of the St. Louis Exposition Commission, in response to Sir Thomas Lipton's suggestion that a series of old time steamboat races be made as a feature of the Exposition.

Mark Twain wants a genuine reproduction of the old time race with no rouabout singers, the use of the torch basket rather than the searchlight and the extinguishment of the latter day government lights, so that the quality of the piloting would count, where the boats are evenly matched in speed.

"As a spectacle," writes Mark Twain, "nothing could add to it except an old-time blow up as the boats finished the home stretch. But this should not be arranged; it is better left to Providence and prayer."

DEFEAT

Awaits President Roosevelt if He Secures the Nomination, Declares Hoke Smith.

New York, March 31—Either Judge Anton D. Parker or Peter B. Olney will be the next Democratic candidate for the Presidency, while Senator Hanna and Governor Odell are strong possibilities for the Republican nomination. This was the opinion of former Secretary of the Interior Hoke Smith, who was at the Fifth avenue Hotel yesterday.

Mr. Smith doubted much whether President Roosevelt would be renominated by the Republicans, and expressed the opinion that if the President did receive the nomination he would be defeated by either Judge Parker or Mr. Olney, which ever received the nomination to become the Democratic standard bearer. Mr. Smith said that he had no doubt that the conservative element in the Democratic party would control the next National Convention. Southern Democrats, he said, were ready to abandon socialistic experiments.

Mr. Smith, with Dr. Gilman, former President of the Johns Hopkins University, Senator Hoar, J. Pierpont Morgan and Mr. Olney, as trustees of the Peabody fund, will meet in the Fifth avenue Hotel today. They are to discuss a plan for the establishment of a teachers' college in the South to be supported by a surplus from the Peabody fund.

There's nothing so bad for a cough as coughing!

There's nothing so good for a cough as Ayer's Cherry Pectoral!

A cough means a great deal to a young person, when there is a family history of weak lungs, with perhaps a case of consumption itself. Coughs weaken the tissues, congest the membranes, and prevent healing. Ayer's Cherry Pectoral controls the congestion and inflammation, and the cough disappears. Your doctor will explain, for we give all doctors the formula.

"We have used Ayer's Cherry Pectoral in our family for over 25 years. For all lung troubles I am sure there is no medicine its equal."—Mrs. A. W. H. Smith, Lowell, Mass.

Hens Beat Wheat

Do you know that the total value of eggs produced in this country last year almost equaled the value of the wheat crop? Seems hard to believe, but that is what statistics show. Then it was necessary to import eggs to supply the home demand. The profits of your poultry year can be readily increased if you will supply your hens with

SERVICES

AT THE PINE STREET CHAPEL THIS WEEK

Dr. Maxwell Preached Last Night on "The Mission of the Holy Spirit."

At the special service at the Pine street chapel on Monday evening, Pastor Maxwell spoke on "The Mission of the Holy Spirit," and in part spoke of "Who and What is the Holy Spirit, and What Are His Offices in the Church and in the World?" Christ said at one time: "If I go away the Spirit will not descend upon My people." Christ himself did not seem to accomplish all that we would naturally think ought to have been accomplished, considering who the teacher and preacher was. He told His disciples that some of them should accomplish greater immediate results than did He himself after the comforter had come whom He would send in the Father's name. And such proved true, for Peter, under the inspiration of the Holy Spirit, on the day of Pentecost, saw three thousand converted. But doubtless three things combined to make this difference.

Christ had not yet died for our sins, according to the Scriptures. He had not risen for our justification, and ascended on high as our intercessor and advocate. But at Pentecost the sacrifice had been offered and the resurrection and ascension were facts, attested to by friends and enemies.

Glorious day for man, when the communication between Heaven and earth was fully established; when an invisible cable wire was extended from everlasting heart straight up to the eternal throne on which messages could be dispatched both ways, and by which God's light and love and power and blessing could be received and felt in human hearts. "He is a comforter." No one English word fully represents the original term. Paraclete's signifies primarily a helper, an assistant, a representative, as well as a comforter and advocate, thus showing how many are the offices which the Holy Spirit performs in the work of salvation and sanctification and how full of power and blessing He can be made to man's soul. How carefully Christ chose His words at this time, when He wished to instruct His disciples fully concerning their future life and work, and also to take their minds off from Himself and transfer them to their other helper, which He was about to send to them. As He (the Son) had been God on earth, so henceforth the Holy Spirit should be invisible. Christ says of him "whom the world cannot receive, because it seeth Him not, neither knoweth Him."

But Christians know him because they have been born again by His power, and He dwelleth with them, and in them. It is a difficult matter to find what He does not do. The work of conviction is His enlightenment, of subduing, of believing, of understanding, of enabling the soul to play, preach and exhort, of resisting evil and growing in holiness.

As the same shower blesses various lands in different degrees according to their respective susceptibilities, making the grass to spring up in the mead, the grain to vegetate in the field, the shrub to grow on the plain, and the flower to blossom in the garden; so the influence of the Holy Spirit, descending on the moral soil, produces conviction in the guilty, illumination in the ignorant, holiness in the defiled, strength in the feeble, and comfort in the distressed. As the spirit of holiness He imparts a pure love. As the spirit of glory He throws a radiance over the character; as the spirit of truth He gives transparency to understanding, soul into devotion; as the spirit of power He covers the face of the earth with works of faith, and labors of love.

Subject of the sermon tonight, "Our Privilege and Duty to Pray." A cordial invitation is extended to all to attend.

Mr. D. B. Pinesford is on the street again today, having about recovered from the grip. He has put in several days' travel in the east. He reports that pastures and what look unusually well where he has been. There is also an air of progress in electric car lines. Especially is this true in Ohio, Indiana and Illinois. A line is now very nearly completed from Newark to Lebanon, Indiana, 70 miles northwest of Indianapolis in direction of Chicago and being rapidly extended.

THE CHILDREN ENJOY

Life out of doors and out of the games which they play and the enjoyment which they receive and the efforts which they make, comes the greater part of that healthful development which is so essential to their happiness when grown. When a laxative is needed the remedy which is given to them to cleanse and sweeten and strengthen the internal organs on which it acts, should be such as physicians would sanction, because its component parts are known to be wholesome and the remedy itself free from every objectionable quality. The one remedy which physicians and parents, well-informed, approve and recommend and which the little ones enjoy, because of its pleasant flavor, its gentle action and its beneficial effects, is—Syrup of Figs—and for the same reason it is the only laxative which should be used by fathers and mothers.

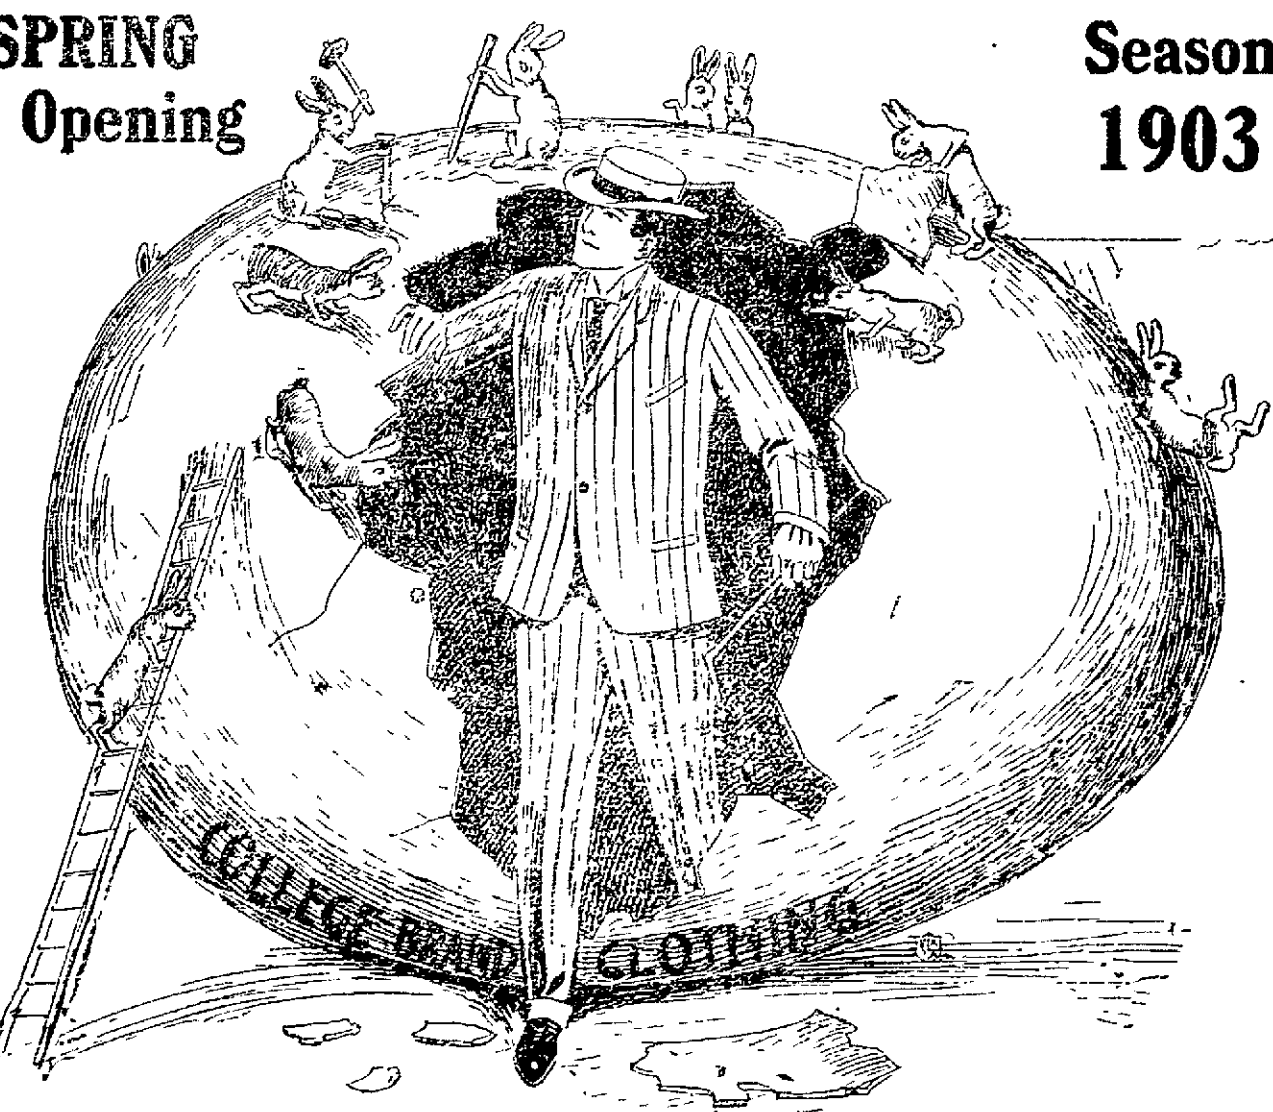

Syrup of Figs is the only remedy which acts gently, pleasantly and naturally without griping, irritating, or nauseating and which cleanses the system effectually, without producing that constipated habit which results from the use of the old-time cathartics and modern imitations, and against which the children should be so carefully guarded. If you would have them grow to manhood and womanhood, strong, healthy and happy, do not give them medicines, when medicines are not needed, and when nature needs assistance in the way of a laxative, give them only the simple, pleasant and gentle—Syrup of Figs.

Its quality is due not only to the excellence of the combination of the laxative principles of plants with pleasant aromatic syrups and juices, but also to our original method of manufacture and as you value the health of the little ones, do not accept any of the substitutes which unscrupulous dealers sometimes offer to increase their profits. Please to remember, the full name of the Company—CALIFORNIA FIG SYRUP CO.—is printed on the front of every package. In order to get its beneficial effects it is always necessary to buy the genuine only. For sale by all reliable druggists.

BLOOD WINE CURED HER OF GRIP.

"I had the grip and it left me a perfect wreck," says Mrs. Irving Mack of Cambridge, Mass. "My appetite was all gone; my nerves were all unstrung. I was unable to get out of bed. Every body told me, 'You look like a ghost.' I couldn't sleep. I struggled against my sufferings, deplete their growing intensity, but I failed completely, and I made up my mind that unless I soon received help I must die. The medicines I took seemed to do me no good, and I was truly a pitiable object. I was white as a sheet and so weak I could hardly walk along the street without staggering. My friends were constantly telling me that I had consumption or some mysterious incurable disease. At length, through the blessing of Divine Providence, I heard of the discovery of a medicine which would do wonderful things. This medicine was 'Blood Wine.' I sent for some of it and began to take it, and the result was simply marvelous. As true as I live, that medicine alone entirely cured me and made me a well woman. Lots of my neighbors who know all about it will stand by me in everything I have said. My health is now excellent, and I do my work with a light heart and a strong body. People need not talk about medicines. The medicine for all who are sick is 'Blood Wine.'"

William Siddle, 236 Broadway, Lawrence, Mass., writes:

"I had the grip about three months ago and it left me in a very bad shape. I had an irregular cough that I could not get rid of. I felt all sorts of rumbles, but received no benefit until I used your 'Blood Wine.' It was recommended by my druggist, and I have him to thank for my complete recovery."

Mr. John H. Heatley, 3-4-5 Brown Bldg., Fall River, Mass., says:

"I am very grateful to my druggist for recommending 'Blood Wine' to me. I was very sick with the grip and did not seem to get well. I became weaker and weaker every day. I can thank 'Blood Wine' for my recovery."

If you want to be cured, to stay cured, to get your system in a thoroughly healthy condition, you can do it with 'Blood Wine,' because 'Blood Wine' begins at the bottom—it abstracts the germs from the blood and gives new life.

Toronto Globe Tells What the Order is Doing—Most Appreciated Nearest Home

"Only by those who know something officially with regard to the growth of the insurance companies will the full meaning of the results which have been achieved by the Independent Order of Foresters during the two months just closed be fully understood. The public have been so used to hearing of the success of this order that fresh figures do not strike them as anything uncommon, but even the most casual observer, we imagine, will be somewhat astonished at the fact that during the months of December and January this great Canadian and International Order considered no less than 14,002 applications for membership in its ranks. Of these 12,149 were accepted. Perhaps the most striking feature of the additions to the membership of the Order during time has been the fact that by far the greatest proportionate number of new members has been secured in the Province of Ontario, where the Order is best known, with a total membership of about 210,000 to begin February with. Dr. Oronhyatekha has set the figures for the end of the year at 240,000, and as the Supreme Chief Ranger usually succeeds in what he marks out as the proper measure of progress for the Order, no doubt these figures will be reached. Undoubtedly the growth of this institution has become phenomenal."

We notice that the average age of the membership of this wonderful Order is only a fraction over 30. The amount of money paid during 1902 to widows and orphans and disabled brethren by this society was \$1,467,635, and this went into nearly 1600 homes. The order also issued nine thousand sick and funeral checks, the total sum paid in that branch of the order's work being about \$175,000.

SCOTTISH RITE.

Spring Reunion Being Arranged—The Programs are Issued for a Three Day Session.

(Columbus Press.)

The local lodges of the Ancient Accepted Scottish Rite Masons have issued attractive programs announcing the spring reunion and work meeting which takes place at the Masonic temple Wednesday, Thursday and Friday, April 15, 16, and 17. The work will be conferred by Enoch Lodge of Perfection, Franklin Council Princes of Jerusalem, Columbus Chapter of Ross Croix and Scioto Consistory.

The officers of the four lodges are: D. N. Kinsman, R. L. Rickley, John E. Sater, John P. McCune and W. E. Joseph.

Arrangements have been made for one of the most successful meetings in the history of the lodges. The first day's meeting will begin at 1 o'clock in the afternoon, with a banquet at 6 o'clock, presided over by D. N. Kinsman. Music will be furnished by the Scottish Rite quartet. The second day's session will also begin at 1 o'clock and will consist of the degrees from the fifteenth to the eighteenth. There will be a banquet at 5:30, presided over by R. L. Rickley. The third and last day's meeting will commence at 10 o'clock in the morning and continue until evening. A banquet at 6 o'clock will be presided over by John P. McCune. A large class of candidates will be present to receive the degrees.

Following the meeting April 23, ataddin temple, Nobles of the Mystic Shrine, will take a class of candidates over the sands to Mecca. The session will begin at 4 o'clock and a banquet will end the evening's entertainment.

LETTER

WRITTEN BY "COOKY" JONES AT HOT SPRINGS.

On the Side He Hands Out a Little Advice to Young Men on Oats Sowing.

Hot Springs, Ark., March 25, 1903. Editor Advocate—No doubt you will be surprised to know why I have not sent in a letter before, but when I tell you I am employed by the year, and that there are times when even a reporter needs a rest, you will understand the rest.

I left our Newark on March 3 with my family for a trip south, and arrived at Cincinnati at 1 o'clock. The ladies, of course, went shopping or show window gazing, while the "old man," "papa," took in the sights street gazing. In my stroll around the city I viewed the remains of the big fire—Pike's Corner house. I thought I had the biggest fire when the Jones block burned on the East Side, but when I looked at a whole square in ruins, I was glad that mine was no worse (with only half insurance). At 7 o'clock our train left for Louisville, Ky. After getting ten miles out of the city the engine burst a flue in the boiler, and there we lay for two hours until it could be sent. From that time on we were late on our entire trip to Hot Springs, Ark., our destination. I must tell the readers of the Advocate a little about the water. Before I left home I went down to the mighty banks of the Licking, and viewed the high waters with amazement. When we reached Memphis, talk about water. Talk to me. Why I supposed we had high water in Ohio, but this southern country is simply flooded. For miles the country we passed through was filled with water up over the fences along the railroad, and I understand that the tracks at Memphis have been over four feet of water for the past week. I am told by the people here that never in the history of the south has there been so much water as there has been during the past two weeks.

Our train was due at Hot Springs at 3 p. m., but on account of high waters we did not arrive until 10 p. m. Being a stranger in Hot Springs, and this being my first visit to the noted resort, I was a little timid about entering such a city by night. As good luck would have it, a Mr. Schneider, one of the Chiefs of the Louisville police, sat opposite us in the sleeper and who was on his way to Louisville. He recommended us to a hotel at which he was to stop, and we availed ourselves of his courtesy. The next day Captain Schneider introduced me to the Chief of Police of Hot Springs, and the Chief of the Pinkerton detectives at this point, a Mr. Hummill, of Columbus, O. On account of being an Ohio boy Mr. Hummill said I would have the protection of the Hot Springs police and the Pinkerton guards during my stay at the Springs. How fortunate, and what a contrast. Only a few weeks before I was under the strong arm of the law in Newark for one week for contempt of court, while now I am under the guidance and protection of the entire force of Hot Springs. The Sunny South (trained almost every day since we arrived) but as I have always said "it is to be born lucky than good looking."

Now I must tell you about Hot Springs, the most noted place in this country. The place has 46 springs. The main spring is so hot that it will boil an egg in less than two minutes. The daily flow 50,000 gallons of water daily, and has 23 bath houses, all controlled by Uncle Sam, which is a blessing to suffering humanity, for if

it was not so, they would skin you alive down here.

I have only struck two things cheap—air and water, for which they make no charge. There are 95 doctors, and everybody must go and see a doctor before they take a course of bath, for that is the style at Hot Springs. "Have you seen your doctor?" or "Have you seen a doctor?"

While I was taking my bath the other day I asked a gentleman who was on the cot what he was here for and where he was from. He said he was from the Indian Territory, and was here to boil out. He said that he did not know of anything being the matter with him, only he had been taking from twenty-five to thirty drinks of whisky and smoking ten to twenty cigars every day all winter, and came here to renovate himself. He asked me what my trouble was. I told him the doctor said I had lint on the stomach and I could not tell him the cause of it unless it was on account of too much chewing of the rag. This place has two daily papers, two banks, fifteen churches, ten miles of street, railroad tracks and hotels and boarding houses without number—a total capacity of 20,000. The record of 1902 shows 105,000 visitors. The place is filled with saloons and gambling houses, which are run wide open. Sporting men are here from every city in the union, but do not think the place is too vile for decent people to visit. The city in my estimation, has a great future before it, for no doubt the water has great healing properties. A word just now to the young men. If you are thinking of sowing any wild oats just come down here before you purchase the seed oats and look about. If you don't return home a wiser man than I miss my advice to recommend a young man to be a man.

Hot Springs is owned, conducted and controlled by the United States government. The springs are all located upon Uncle Sam's ground; also one of the finest Army-Navy hospitals in this country.

The government took charge of the valley in 1832 and has made constant improvements here to the present time, spending thousands of dollars in the valley of the Ozark Mountains. As I said, the place has 23 bath houses, controlled by the government, and the record of 1902 shows 530 tubs and 324,037 baths given at a cost of \$3 to \$10 per course ticket of 21 baths and the same attendant fee to all, rich or poor, \$3.

I expect to remain here until the course of baths are furnished and then return to my native city, Newark, one of the garden spots of Mother Earth, and I have yet to find a place in all my travels that has any more charms for me than old Newark. Yours truly, "COOKY" JONES.

GOOD WAY TO DO BUSINESS.
Frank D. Hall Sells Reliable Remedy at Half Price, and Guarantees Cure.

When one can buy gold dollars for fifty cents, it is a good time to purchase.

In offering a 50 cent bottle of Dr. Howard's celebrated specific for the cure of constipation and dyspepsia at 25 cents, Frank D. Hall is giving one of the greatest trade chances ever offered to the people of Newark.

If food does not digest well, if there is gas or pain in the stomach, if the tongue is coated and the breath bad, if there is constipation and straining, Dr. Howard's specific will cure you. If it does not, you have druggist Frank D. Hall's personal guarantee to return your money.

These are strong statements, but Frank D. Hall is giving his customers a chance to prove their truth at just half the regular price—sixty doses for 25 cents. If they are not found true, all you have to do is to ask for your money.

A MASONIC CLUB

Is to be Organized in Newark and Rooms in the Rider Block Will Probably be Fitted up for the Purpose.. Committees Named.

Monday night about sixty of the Master Masons of Newark in response to a call issued by a committee, consisting of Messrs. L. P. Schaus, J. L. Worth and A. A. Stasel, met in Masonic Hall to take action in regard to the formation of a Masonic club for social purposes.

The meeting was called to order by A. A. Stasel, Master of Newark lodge, who presented Mr. L. P. Schaus as chairman of the meeting. Mr. Stasel was made secretary and Mr. Worth treasurer.

The object of the meeting was presented by Mr. Stasel and the matter of organizing the club was thoroughly discussed. It was reported by the committee having the matter in charge that the rooms on the second floor of the Rider block, occupied by the Masonic hall, could be secured for a term of years at a certain rental, and it was suggested that as there are about four hundred Master Masons in the city, there ought to be a membership in the club of at least two hundred.

On motion of Mr. Wm. M. Cunningham it was decided that a Masonic club be organized.

On motion of Mr. Charles L. H. Long a committee of twelve was appointed to canvass the Master Masons of the city for membership, and to report at the meeting to be held on Saturday night at 8 o'clock.

On motion of F. L. Beggs, a committee of three was appointed on constitution and by-laws. The committee consisted of L. P. Schaus, A. A. Stasel and F. L. Beggs.

sol and F. L. Beggs, Mr. Schaus being appointed by the members present. The meeting then adjourned to Saturday night at 8 o'clock.

Miss Alice Bailey, of Atlanta, Ga., tells how she was permanently cured of inflammation of the ovaries, and escaped the surgeon's knife, by the use of Lydia E. Pinkham's Vegetable Compound.

The universal indications of the approach of woman's great enemy, inflammation and disease of the ovaries, are a dull throbbing pain, accompanied by a sense of tenderness and heat low down in the side, with occasional shooting pains. On examination it may be found that the region of pain will show some swelling. This is the first stage of inflammation of the ovaries.

"DEAR MRS. PINKHAM—I wish to express my gratitude for the restored health and happiness Lydia E. Pinkham's Vegetable Compound has brought into my life.

"I had suffered for three years with terrible pains at the time of menstruation, and did not know what the trouble was until the doctor pronounced it inflammation of the ovaries, and proposed an operation. I felt so weak and sick that I felt sure that I could not survive the ordeal, and so I told him that I would not undergo it. The following week I read an advertisement in the paper of your Vegetable Compound in such an emergency, and so I decided to try it. Great was my joy to find that I actually improved after taking two bottles, so I kept taking it for ten weeks, and at the end of that time I was cured. I had gained eighteen pounds and was in excellent health, and am now.

"You surely deserve great success, and you have my very best wishes."—Miss ALICE BAILEY, 50 North Boulevard, Atlanta, Ga.

Another woman saved from a surgical operation by Lydia E. Pinkham's Vegetable Compound. Read what she says:—

"DEAR MRS. PINKHAM:—I cannot thank you enough for what your Vegetable Compound has done for me. If it had not been for your medicine, I think I would have died.

"I will tell you how I suffered. I could hardly walk, was unable to sleep or eat. Menstruation was irregular. At last I had to stay in my bed, and flowed so badly that they sent for a doctor, who said I had inflammation of the ovaries, and must go through an operation, as no medicine could help me, but I could not do that.

"I received a little book of yours, and after reading it, I concluded to try Lydia E. Pinkham's Vegetable Compound, and I am now a well woman. I shall praise your medicine as long as I live, and also recommend the same to anyone suffering as I was."—Mrs. MEXIE OTTOSON, Otho, Iowa.

All sick women would be wise if they would take Lydia E. Pinkham's Vegetable Compound and be well.

HELP

IS EXTENDED BY THE KING'S DAUGHTERS

Township Trustees and B. & O. Superintendent to Woman and Child in Destitute Circumstances

Mrs. Fay Bragg and her little nine year old daughter arrived here in destitute circumstances several days ago. Mrs. Bragg had been living in Colorado Springs, Col., with her husband, who deserted her, and afterwards secured a divorce from her, and she started for her old home in Windsor Locks, Conn. Her money gave out on arriving here, and the Township Trustees at several of the members of the Whatsoever Circle of King's Daughters interested themselves in the case, and through the generosity of Superintendent Batchelder, of the Baltimore & Ohio railroad secured a half rate for her to her old home. A ticket was purchased and she was started on her way rejoicing.

Paine's Celery Compound

The Spring Fortifier and Cleanser Prolongs Life.

Paine's Celery Compound is today the most reliable and most successful Spring medicine in the world. The present enormous demand is the best proof of its popularity. It has almost entirely displaced the common remedies in pill and liquid forms once so common, and in many respects so dangerous to health.

Paine's Celery Compound has been marvelously successful for the simple reason that in every instance it accomplishes more than is claimed for it.

W. H. LADD,
Of Allison, Tenn.

It is the one spring remedy that physicians and the best people endorse. Men and women of wealth and high social position, able to command the services of the most eminent medical men, use Paine's Celery Compound in springtime, having full confidence in its virtues. The experience of tens of thousands has proved that it is wise to use Paine's Celery Compound in the early spring days for the banishment of rheumatism, neuralgia, dyspepsia, nervousness and insomnia. Paine's Celery Compound is, par excellence, the great blood purifier; it increases the constructive capacity of the vital fluid, nourishes the tissues and builds up the system. Mr. M. H. Ladd, of Allison, Tenn., writes:

"For several weeks before I commenced using Paine's Celery Compound I had a tired and all gone feeling, my blood became impure, and I was daily losing flesh. One of my friends advised me to use Paine's Celery Compound, and I got relief from the first bottle. I am glad to recommend it to all suffering humanity. I believe it has prolonged my life. I am now seventy-two years old."

EST. 1847. Allcock's POROUS PLASTERS

Are a universal remedy for Pains in the Back (so frequent in the case of women). They give instantaneous relief. Wherever there is a pain apply a Plaster.

DIRECTIONS FOR USE

For pains in the region of the kidneys, or for a Weak Back, the plaster should be applied as shown above. Wherever there is pain apply Allcock's Plaster.

For Rheumatism or Pains in Shoulders, Elbows or elsewhere, or for Sprains, Stiffness, etc., and for Aching Feet, cut plaster size and shape required and apply to part affected as shown above.

For Sore Throat, Coughs, Bronchitis, for Weak Lungs and for painful and sensitive parts of the abdomen, apply as indicated.

Rheumatism, Colds, Coughs Weak Chest, Weak Back Lumbago, Sciatica, &c., &c.

If you want the best results, the quickest and cleanest cure, use Allcock's Plasters. They are far superior to belladonna, which is the extract of deadly night shade, a virulent poison, and never should be used except by direction of a physician. Allcock's Plasters contain no poisons. They cure by absorption. Absolutely curative, perfectly harmless.

Read letter from Prof. Henry A. Mott, the eminent chemist.

"My investigation of ALLCOCK'S POROUS PLASTER shows it to contain valuable and essential ingredients not found in any other plaster, and I find it superior to and more efficient than any other plaster."

TRAVELERS BECOME COSTIVE!

The change in diet and drinking water, the motion of the cars, the irregular habits of travelers, no matter whether they travel on business all the time or for pleasure occasionally, usually result in a constipated condition of the bowels or some stomach or bowel trouble. Travelers should always have a bottle of

Dr. Caldwell's Syrup Pepsin

with them. It is a pleasant liquid laxative and a certain cure for sick headache, train sickness and all stomach trouble. Your druggist sells it in 50 Cent and One Dollar bottles.

W. P. Galt, of Little Rock, Ark., Traveling Salesman for the Smith-Premier Typewriter Co., writes: "While traveling through western Arkansas, in February last, I had a severe attack of acute constipation. There was no doctor at hand, and I was suffering terribly. Your agent handed me a bottle of Dr. Caldwell's Syrup Pepsin (which at that time was unknown to me). I took two doses and was relieved at once, and I want to say now that when I am on the road I am never without a bottle of Syrup Pepsin in my grip. I consider it as essential as my order book, and can find nothing equal to it for Stomach Trouble and Constipation."

LIFE INSURANCE.

D. C. Herrin Answers the Open Letter of "A. L. S." Published Saturday—Answer Follows

Cincinnati, O., March 30, 1903.

"A. L. S."—I do not know whether to call you "Dear Sir" or "Dear Madam." It is somewhat embarrassing to a man who works in "the open" to try and answer one, whom it would appear, works "under cover." To my mind there may be two reasons for not signing one's name to an article; one is, where one is ashamed of the name, and the other is, where one is ashamed of the article.

Hon. Ellizur Wright, ex-Commissioner of Massachusetts, is quoted as having said in answer to the question, "What is life insurance?" "It is the standing together, shoulder to shoulder, of hosts of many men, to defend each other's home from the enemy that shoots on the sly and in the dark, etc. etc."

This organization has had such attacks since its organization, 35 years ago, to the present time and probably will have in years to come, but will continue to live and do good when its traducers are gone and forgotten.

I deprecate a newspaper argument over a matter that will probably concern none except the members of the A. O. U. W. and A. P. U. and only serve to create a bitter feeling between them. You have made some assertions that I believe should be noted. Your first query through the advocate was not seen by me until it appeared in print over my supposed answer. I knew nothing of your query when I wrote my first article. The editor called me up over the phone and asked me how much "reserve" the A. O. U. W. had, and when I answered him he asked me if I could write it down for him, which I did, then lo and behold! it appeared in print as the answer to the communication that I had never seen. The editor cannot be blamed, however, for the whole thing is a matter too trivial to secure space in the paper.

In your article of March 28th, you say, "To the query of the 4th inst. as to your cash capital that you had on and still remains unanswered." If you mean what you say and want to know how much money I have, then I decline to answer. If you intended to refer to the A. O. U. W., I will say that this organization was never organized for profit, but has always collected sufficient to pay its losses only. Nevertheless, it has some loose change on hand in the course of its business transactions: the last report which has just reached me, shows: Al. Guar. Fund, Feb. 1...\$110,210.42 Al. Benefit Fund, Feb. 1...217,953.74 on hand in Subordinate Lodge (Est.)...\$50,000.00

Total...\$1,178,266.16 This is not a reserve, but is used to liquidate claims as they occur. You also say "if there is no surplus, how accumulated from the amount of business done in the past, this only establishes the fact that the business has been conducted at a loss." I cannot understand such reasoning. If there is a surplus, it shows that business has been conducted at a profit. Figuring,

Age of Contestant.....

Name of Contestant.....

Address of Contestant.....

This contest is open for all Boys and Girls under 16 years of age. It costs nothing. Cash prizes will be awarded the winners.

INSTRUCTIONS—After solving the rebus insert name of the firm on the top line, writing all that the picture represents and nothing more. Boys and girls must give their names, ages and addresses. Cut out the picture on border lines and preserve it until eleven others which will appear between the dates, March 24 and April 6 inclusive, are solved in a like manner.

After two twelve rebuses have appeared send the coupons properly filled out to the Rebus Editor of the Advocate at or before 7 o'clock Saturday night, April 11, 1903.

No essay or composition in this contest is required. Some of the puzzles are more difficult to solve than those

It was not created to make a "fat thing" for somebody. It was intended to provide protection at "actual cost" from month to month and that is what it has been doing, as an Order, for the past 35 years. I cannot conceive of a business that realizes enough to pay all its obligations, being called a losing business.

You speak of the A. P. U. Here I must confess my ignorance. I know not whereof you speak. I have never seen their literature or heard of its plan. Pardon my ignorance. I have hunted through the 115 Beneficiary Organizations, listed in the Criterion Chart for 1902, and I failed to find it. I have inspected the Ohio Insurance Department Report, ending Dec. 31st, 1901, and I fail to find it mentioned there. I fear you are trying to perpetrate a joke on me, as it is near April 1st.

You speak of the A. O. U. W. admitting a man at age of 20 and after he had been in the Order 45 years he would have been \$473.21.

You had better do some figuring. The fact is, he would have paid in \$710.04 on a \$1,000 certificate. There are two plans of insurance: One is a "reserve" plan, where the policy holder pays more than cost in the beginning in order to provide for the increasing death rate. This plan is all right "if the members pay enough and the society does not lose it by bad investment or theft."

The other plan is the "Step Rate," where the member pays the cost at all times. As the death rate increases, so does the cost to the member. This plan is safe, for as long as the member pays the cost there can be no deficiency.

The A. O. U. W. plan is a modification of the "Step Rate" known as the "Classified Plan." By it, the cost increases each five years to age 50 and thereafter remains stationary. In order to provide for the increasing cost after 50, the rates are loaded about 20 per cent. and in addition, thereto there is a Guaranty Fund, which is used to adjust any difference that may exist at the end of each year.

Don't worry about the safety of the A. O. U. W. Dear "Sister," if the A. P. U. (whatever that is) can collect \$465.30 from a member by the time he is 65 years old and then be able to give him \$500 cash at age 71 and never charge him any more assessments after that, but still pay the balance of his policy at death, the A. O. U. W. certainly will not "fail" for the want of cash, when it collects \$710.04 during the same period of time (to age 45) and does not pay him cash at age 71, nor does it put him on the free list, but he continues to pay \$27.04 benefits and guaranty fund as long as he lives. You have your figure woefully mixed my good "sister."

Borrow some A. O. U. W. literature. Establishes the fact that the business has been conducted at a loss. I cannot understand such reasoning. If there is a surplus, it shows that business has been conducted at a profit. Figuring,

printed in the first contest and the prizes will be awarded on the solution of the puzzles alone. The answers submitted must be absolutely correct. In other words the contestant must write in the blank lines just what the picture portrays and nothing more. To the boy or girl under 16 whose solutions are best the Advocate will give a prize of \$5.

To the boy or girl under 16 who ranks second a prize of \$3 will be awarded.

To the boy or girl under 16 who ranks third a \$2 prize will be awarded. This contest is open to every reader of the Advocate who is under 16 years of age. It costs nothing to participate.

A reserve is a nice thing, I will admit. "Honest John" up on the lake got mixed up with several thousands of a reserve not long ago, and then in Chicago, one of the best of orders had about \$500,000 of its reserve "melted away" in bad investments. A reserve is a nice thing, but the "Charter Oak" failed with over \$12,000,000. The Knickerbocker Life had over \$7,000,000 when it laid down and died. The Continental Life had nearly \$8,000,000 but it turned its toes up to the daisies. The St. Louis Mutual gave up the ghost with over \$6,000,000; the North American Life and the Universal Life, each experienced "death" with over \$5,000,000. The Globe Life Ins. Co. "croaked" with over \$4,000,000, the Guardian Mutual Life, the Life Association of America and National Life of the U. S., each with over \$3,000,000 are "singing among the angels"—yes, dear "Sissy," 89 old liners went "twirling" through the "Sweet Bye and Bye" with over \$100,000,000 of money, but the A. O. U. W. without a dollar of reserve, was all this time paying its claims, and nobody lost any sleep either. Did any body see a great big panic stalking across the United States a few years ago? Banks failed, business houses closed their door, but the A. O. U. W., without a dollar of reserve, kept right on paying its bills. Yellow fever invaded our country in 1873, but the A. O. U. W. kept paying its bills; the grippe left many green graves all over our land, but the A. O. U. W. kept paying their claims. It is 35 years old; it has 450,000 members; it has reached its maximum death rate; for the death rate of the A. O. U. W. has not increased two per cent in 12 years; it has 27,000 members under 25 years of age and it has members over 90 years old; some are dying of old age and their sons are joining. Don't grieve dear "Sister," for the grand old Order; it is too large for you to hurt it—you couldn't spank it if you wanted to; devote your time to the new born infant. It will need all your attention for a while—there will be colic, then measles and whooping cough, and you know it has its teeth to cut and "teething" always was wearisome.

Good luck to you "Sister," may your A. P. U. prove everything you hope of it, and when you rush into print again, be a "man" or a "woman," or an "it" and sign your name—don't shoot from under cover."

Faternally yours,
D. C. HERRIN.

TODAY'S CHAMPIONSHIP BATTLE.

This afternoon at San Francisco

Terry McGovern will attempt to win back the championship of the feather weight class, snatched from him at Hartford over a year ago by Young Corbett, when he "will meet" the doughty little champion in fight that is crucial in the career of both boys. The betting, strange to say, favors McGovern 10 to 8 and better, and it is a remarkable fact considering that the history of the prize ring, a man defeated for the championship never defeated his conqueror in subsequent meeting. What has made the odds, favor Terry is his great showing in his recent contest while Corbett's record has not been what a champion would be expected to do.

Both fighters are confident of victory, there can be no doubt of that. The thing that is worrying Corbett's admirers is the difficulty he seems to make the weight, and they fear that if he has to spend a couple of hours in a Turkish bath just before he goes into the ring his wakened recuperative powers will make him an easy victim for McGovern. The champion however, laughs at this idea and says he will be strong when the time comes.

Johnny Corbett former manager of Young Corbett has the following for last to make on the event:

"After watching every move and punch 'Terry' used in his fight, I found battle with Dave Sullivan, and knowing Corbett's abilities as I do my judgment as to how the boys will shape up tomorrow is as follows:—
"Condition—McGovern.
"Confidence—Even up.
"Ring generalship—Corbett.
"Clearness—Corbett.
"Hitting power—Even up.
"Straight left—A toss-up.
"Left hook—Corbett.
"Right swing—McGovern.
"Straight swing—McGovern.
"Straight right—McGovern.
"Right swing—Corbett.
"Fast cut—A toss-up.
"Hitting in general way—McGovern.
"Long range—Corbett.
"Knock-out—Even up."

Upper cut—Even up.

"Feinting—Corbett.

"Blocking—Corbett.

"Smothering up—Corbett.

"Too work—Corbett.

"Judge of distance—Even up.

"Recuperation—A stand off.

"Corbett's weakest point—Body.

"McGovern's weakest point—Jaw.

"I pick Corbett to win because he has got the best head. When Terry gets stung he will lower his head and rush like a bull and what good can a fighter do, no matter if he is in condition and has got a good punch, if he gets up in the air and forgets when to punch, where to punch and how to punch?"

It will be seen that he gives McGovern 6 points in his favor, and Corbett 9 while in seven respects they are "even up."

Personally we pick Corbett to win, in any style McGovern adopts. McGovern is and has been a fighter of the bluff, slam, bang order, and most of his battles have been won by having his opponents beaten before they entered the ring. With Corbett's different. He is not a bit afraid of McGovern, and has that confidence of victory born of having once defeated him.

The champion has the best head and will certainly tantalize McGovern into losing his temper and then calmly wade in and finish him. It makes no difference what Terry says, he cannot change that violent temper any more than a leopard can change its spots or an ethiopian his skin.

Mark the prediction, Corbett will be returned the winner.

McChesney Defeated.

J. W. Schorr's aged gelding, Ori-

ginal, with a master and jockey Bill-

man in the saddle won the Montom-

ey handicap at Memphis Monday, the

\$10,000 favorite, McChesney took a

second position.

The betting was in favor of Mc-

Chesney, 2 to 1, being the best the

bookies offered, and the odds of 2

to 1 was the best that the friends of

the underdog could get for him.

Harry Nease at 10 to 1 and was in

and while Will and his stable

third.

An 8 to 1 bet was made at

Denver.

AMUSEMENTS.

William Bonelli and Rose Stahl's production of Paul Leicester Ford and Edward E. Rose's dramatic version of the former's very popular revolutionary romance, "Janice Meredith" will be the attraction at the Auditorium this evening. The part of Janice will be impersonated by Miss Stahl, the talented dramatic star, who, in personality and artistic ability, is exceptionally well fitted for this exacting character. Followers of metropolitan amusement will remember that this play was presented for more than three months at Wallack's theatre, in New York City last season, scoring one of the most substantial successes of the theatrical year in the metropolis. From a literary standpoint Mr. Ford's story is considered one of the best presenting scenes and the atmosphere of the Revolutionary times ever painted in this country. "Janice Meredith," as a play, possesses an intense dramatic interest and appeals especially to every American, it presenting realistic stage pictures of several of the most important and eventful incidents of the Revolutionary war.

TOMORROW EVENING.

After an unremitting search which has occupied the best time of the past winter, the management of the Big Century Vaudeville Show which will be seen here at the Auditorium tomorrow night, April 1, has succeeded in getting together an aggregation which

One of the Little Ones with the Big Vaudeville Show

is supposed to be a top-notch in its line. When the show was put together, the instructions given the vaudeville agents were to gather the best list of performers that could be obtained in the market. The agent set to work, followed out instructions, with this prodigious result. Bryant & Saville, musical comedians, Laredo & Blake, comedy acrobats, Trask & Rogers, black face comedians and eccentric dancers, Thomas Leo and Jessie Chapman in a novel comedy gymnastic sketch, Chris Lane, monologist and parodist, Mabel Goodwin, singing and dancing, soubrette, the Great Lorenzo, juggler, and the wonderful Kindey, moving picture machine.

The railway bridge which connects Vevre with the mainland is 1265 feet long and has 222 arches.
